IDEA-0218-69
Copy 12 of 12

10 March 1969

MEMORANDUM FOR: Deputy for Materiel, OSA
Deputy for Operations, OSA
IDEALIST/O/OSA
Contracts Management Division, OSA

SUBJECT: Gas Bottle Backup System for IRIS II

REFERENCE A: Memorandum for D/O/OSA, I/OPS, D/M/OSA,
Subject: Provision for use of Bottle Gas
for IRIS II Configuration (IDEA-0214-69),
dated 25 February 1969

B: Memorandum for D/O/OSA, I/OPS, D/M/OSA,
Subject: Same as Ref A, (IDEA-0180-69),
dated 19 February 1969

25X1A

1. On the same day Thermal Stabilization Meeting was held at Project Headquarters on 5 March 1969, [redacted] LAC, and [redacted], ITEK, met in the undersigned's office to firm up action to be taken to produce a minimum gas bottle system to furnish air to air bars of the IRIS II. Ref B, paragraph 5 material was used as guidelines.

2. Action Taken:

A. [redacted], LAC, will furnish ECP giving time and costs to design and fabricate two (2) four bottle racks with bracketry along with alternate electrical harness. ECP will also include information as to best attachment arrangement plus fit check. (ATTN: D/M and Contracts).

B. [redacted], ITEK - Will submit costs and time for items they will furnish, i.e., gas bottles, reducing valves and charging valves (ATTN: D/M and Contracts).

3. SSD/R&D/OSA stated to both LAC and ITEK we desire to have this backup capability by 1 April 1969.

[redacted]
